Lost Hub - Hacked by Enemy

- The user is in the device spectating screen and operating the device

Royale_Spectate_2

Hacked

- Suddenly the screen goes red, and the user looses control of the device, a message "hub hacked" appears across the center of the screen, and the "controlling" message changes to "enemy controlled"

Royale_Spectate_2

Map View: Hacked

- After a few seconds [tbd] - the user is returned to the map where they will see the hub they previously captured is now red and displayed as "enemy hub"
- User has the option to ping the hub to inform their squad that they have lost control of the hub and want assistance with reclaiming it.
